

**US Local Yellow Pages &
US Yellow Pages Business Directory Listings**

The Powwwerpages' Yellow Pages Business Directory advantage

In today's hotly contested online marketplace, many listing sites and business directories are competing for the users' attention. A few of those online **Yellow Page directories** are well structured and logical, intelligently searchable and user-friendly; many are less so. Some provide visibility to the advertisers they host ; many don't.

And while they all have a right to be there, it's another issue how much users will benefit from less good **online Yellow Pages Directories**. Much independent research has been conducted and has consistently shown that **Yellow Pages Business Directory searchers** are looking for fast and reliable **listings** and **ads**, logical and user-friendly functions, and useful features. **Yellow Page Business Directory advertisers** want - of course - to be visible, and actually be seen and noticed.

Often, users play both roles - "find" and "be found" - since everyone, even advertisers, will always need to look for business contacts and information. Obviously then, a **Yellow Page Directory** that can do justice to both of these groups can be considered a good and potentially very valuable business resource tool.

The **US Yellow Page Business Directory** by Powwwerpages is just such a tool.

Our online **Yellow Pages Business Directory Listings** and ads give users the best of both worlds. To the searcher, intuitive and logical functions, fast, clear results, and features that make finding and managing listings not only useful but a pleasure. At the same time, Powwwerpages' own very high web visibility and Google ranking for thousands of keywords provide our **Yellow Page Business Directory** advertisers with a powerful web presence.

All this comes at a surprisingly moderate cost (and many features come at no cost at all).

Check the grid below for the valuable features and functions our **Yellow Pages Business Directory** and **Directory Listings** offer. Then click www.powwwerpages.com and browse.

Discover how to profit by advertising on Powwwerpages. See **Yellow Pages** listing samples and previews and decide what's best for you.
